GOLDEN EAGLE

1961

WITHIN THE FUTURE YEARS THERE WILL BE MOMENTS TO REMEMBER--BUT THE MIND IS ABLE TO HOLD ONLY A FEW MEMORIES. SO, RECORDED ON THE FOLLOWING PAGES ARE PICTURES AND HIGHLIGHTS OF A YEAR THAT SHOULD NEVER BE FORGOTTEN, AND EXPERIENCES THAT WE SHALL ALWAYS TREASURE.

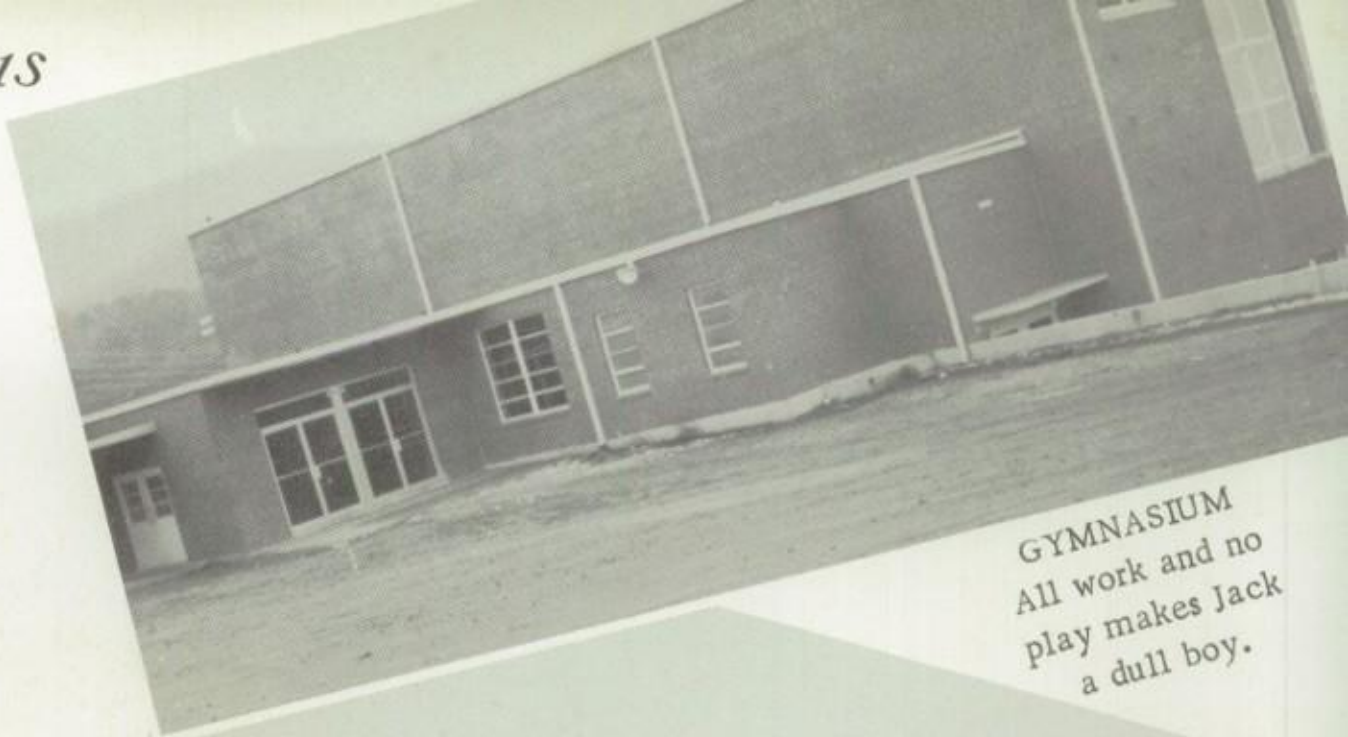

SYLVA-WEBSTER HIGH SCHOOL
Sylva, North Carolina
Published by the JOURNALISM CLASS

This is our Campus

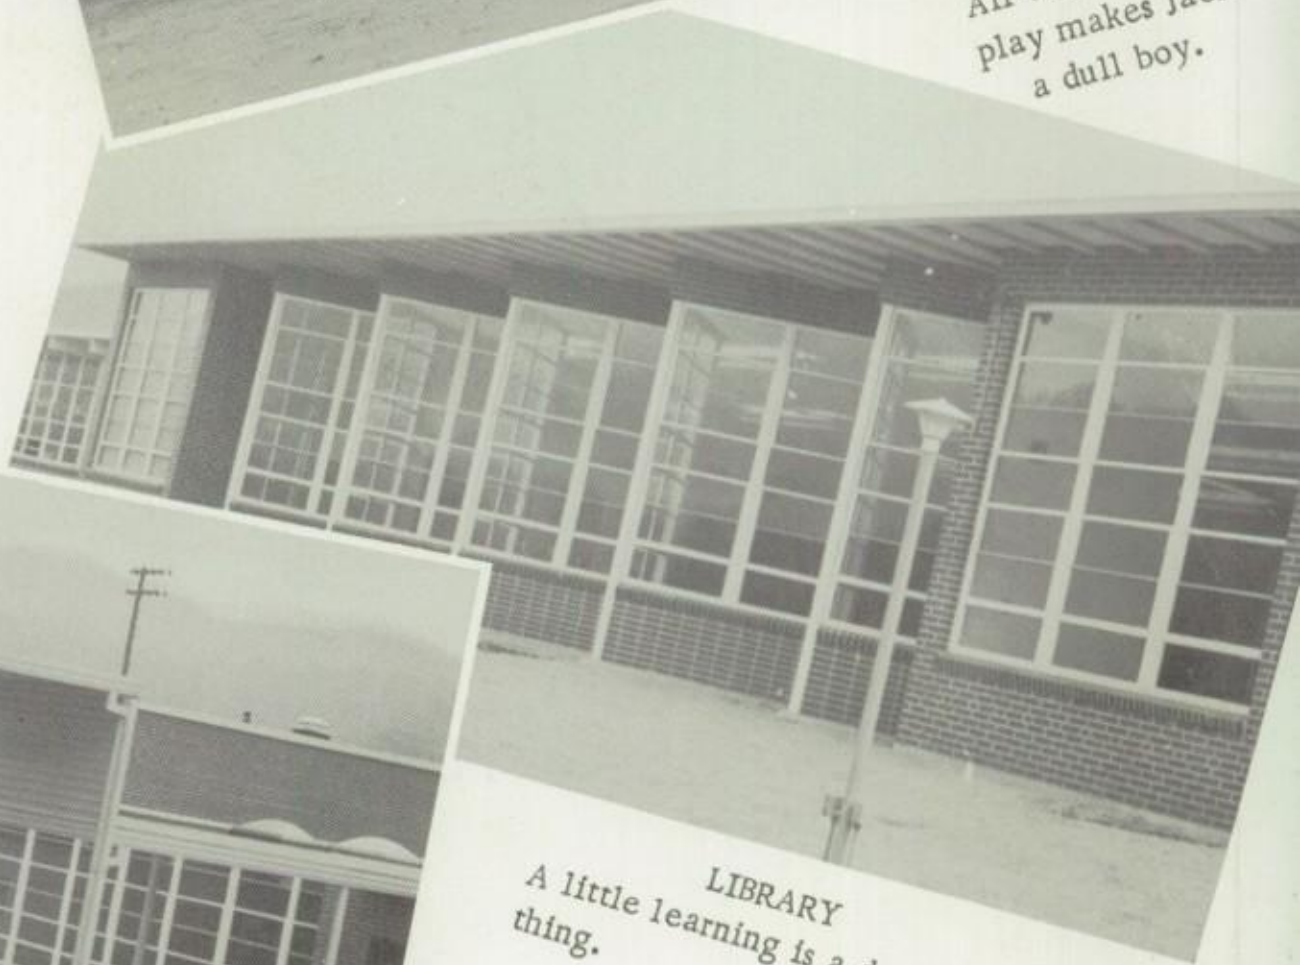

The 1961 GOLDEN EAGLE reflects a new era in our school life. This particular year is outstanding because of our having a large campus and an excellent group of buildings; an increased student body, a larger faculty, and a wonderful school spirit.

The location of our school plant is one of the most beautiful sites in Western North Carolina. Standing on a small plateau, the area is surrounded by mountains on every side. Its central situation makes it easily accessible to all the students in the district.

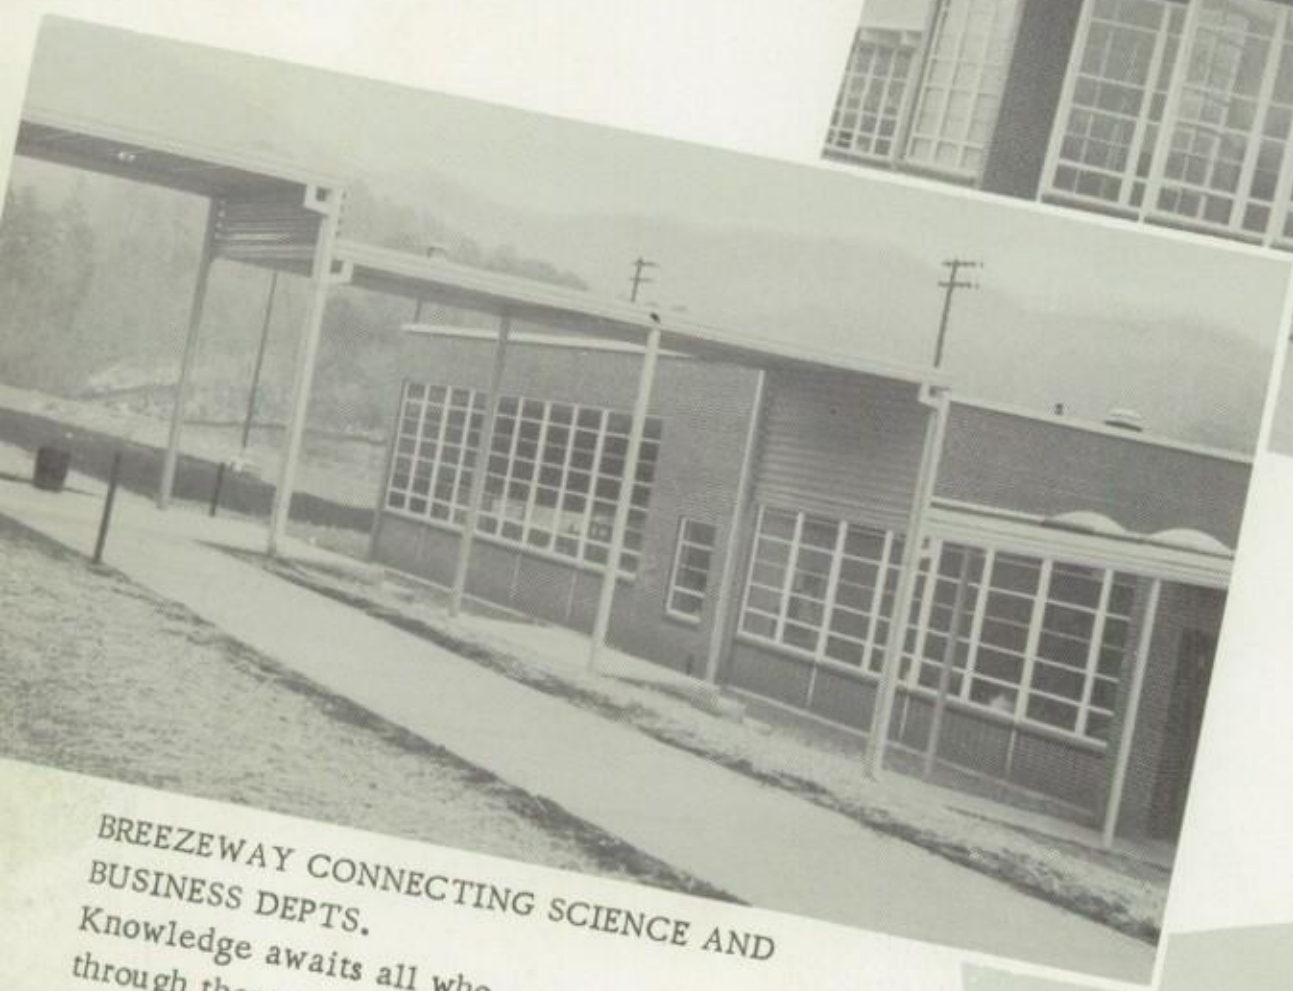

All these advantages provide a challenge to us to be better students.

GYMNASIUM
All work and no
play makes Jack
a dull boy.

LIBRARY
A little learning is a dangerous
thing.

BREEZEWAY CONNECTING SCIENCE AND
BUSINESS DEPTS.
Knowledge awaits all who
through these portals
walk.

CLASSROOM SECTION
From these hills cometh our inspiration.

Dedication

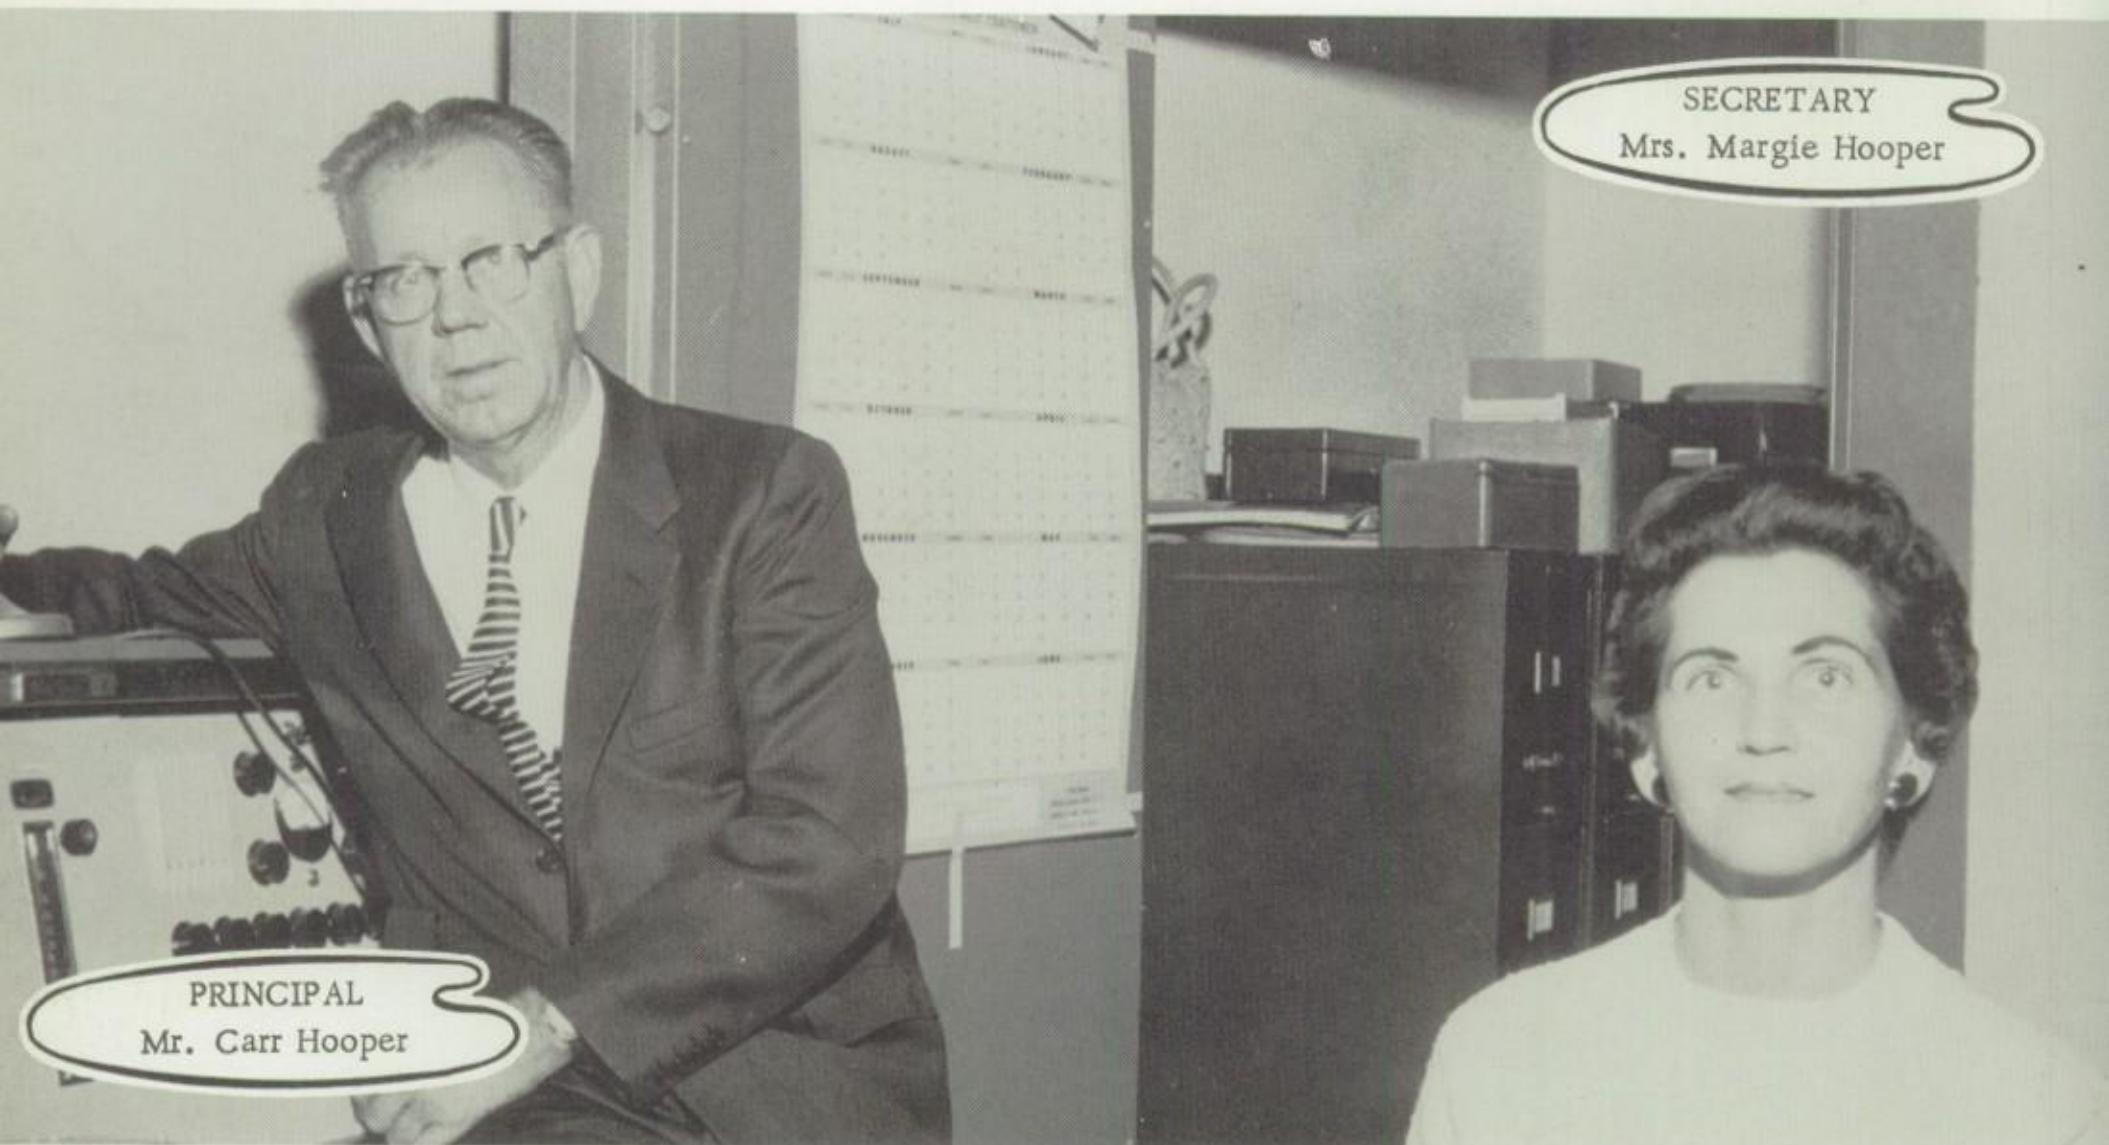

The Senior Class of 1961 proudly dedicates this first annual of Sylva-Webster High School to Superintendent W. Vernon Cope whose untiring efforts have made possible for our use one of the finest school plants in North Carolina. As a public servant who works constantly to improve the educational opportunities for the boys and girls of Jackson County, Mr. Cope will always be held in highest regard by all of our citizens.

Administration

Administration

Before Upperclassmen and bewildered Freshmen begin school, their academic problems have been solved by the administrative staff. We are indebted to our principal for systematic and thorough guidance through high school.

PRINCIPAL
Mr. Carr Hooper

SECRETARY
Mrs. Margie Hooper

Board of Education

A group vitally important to our school system is the Board of Education. It represents the public in its supervising capacities and acts as an executive committee of the people to see that policies, procedures, and expenditures are used in the best interest of all.

The class of 1961 wishes to express its appreciation and thanks to the Board for making it possible for us to receive our education from an excellent faculty; and for providing such beautiful new buildings in which to work.

Left to right: Mr. Burke Buchanan; Mr. W. R. Enloe; Mr. Tom Dillard, Chairman; Mr. George Lee; and Supt. W. Vernon Cope, Secretary. Mr. John E. Hooper was absent when the picture was made.

Faculty

English

These six remind us of Shakespeare
and Poe.

They taught us our English, in case
you don't know.

We learned about verbs and nouns
and essays,

And these we'll remember the rest
of our days!

SEATED: Mrs. Pearl B. Madison, A.B.

Mrs. Sibyl M. Reed, M.A.

Mrs. Sally Mae Campbell, M.A.

STANDING: Mrs. Sara Moore Cathey, M.A.

Mrs. Louise B. Davis, M.A.

Mrs. June Bess Cowan, M.A.

Now here's who taught us all
that they could,
If mn^2 didn't work, then $x + y^2$
would.
Constructing circles, triangles,
and lines parallel,
The things they taught us certainly
rang a bell!

Mr. Ray Rogers Clark, M.A.

Mrs. Rebecca S. Evans, B.S.

Mathematics

Around the world in 180 days, we
visited many places,
And while we traveled here and
there, we saw many new faces;
Krushchev, Lumumba, and Castro,
are some of the ones we met
In all our many years to come,
these teachers we won't forget.

Miss Ruth J. Barnard, M.A.

Mr. Rex D. Gorden, M.A.

Mrs. Mary Reynolds Cowan, A.B.

Mrs. Ida Lee Hunter Enloe, A.B.

Social Studies

Without these two, we wouldn't
 know much,
 About cooking, sewing, housekeeping,
 and such
 "A stitch in time save nine," we
 know
 Because these two have proved that
 so.

Mrs. Willa Mae Scroggs, M. A.
 Mrs. Elizabeth Hope Reed, M. A.

Home Economics

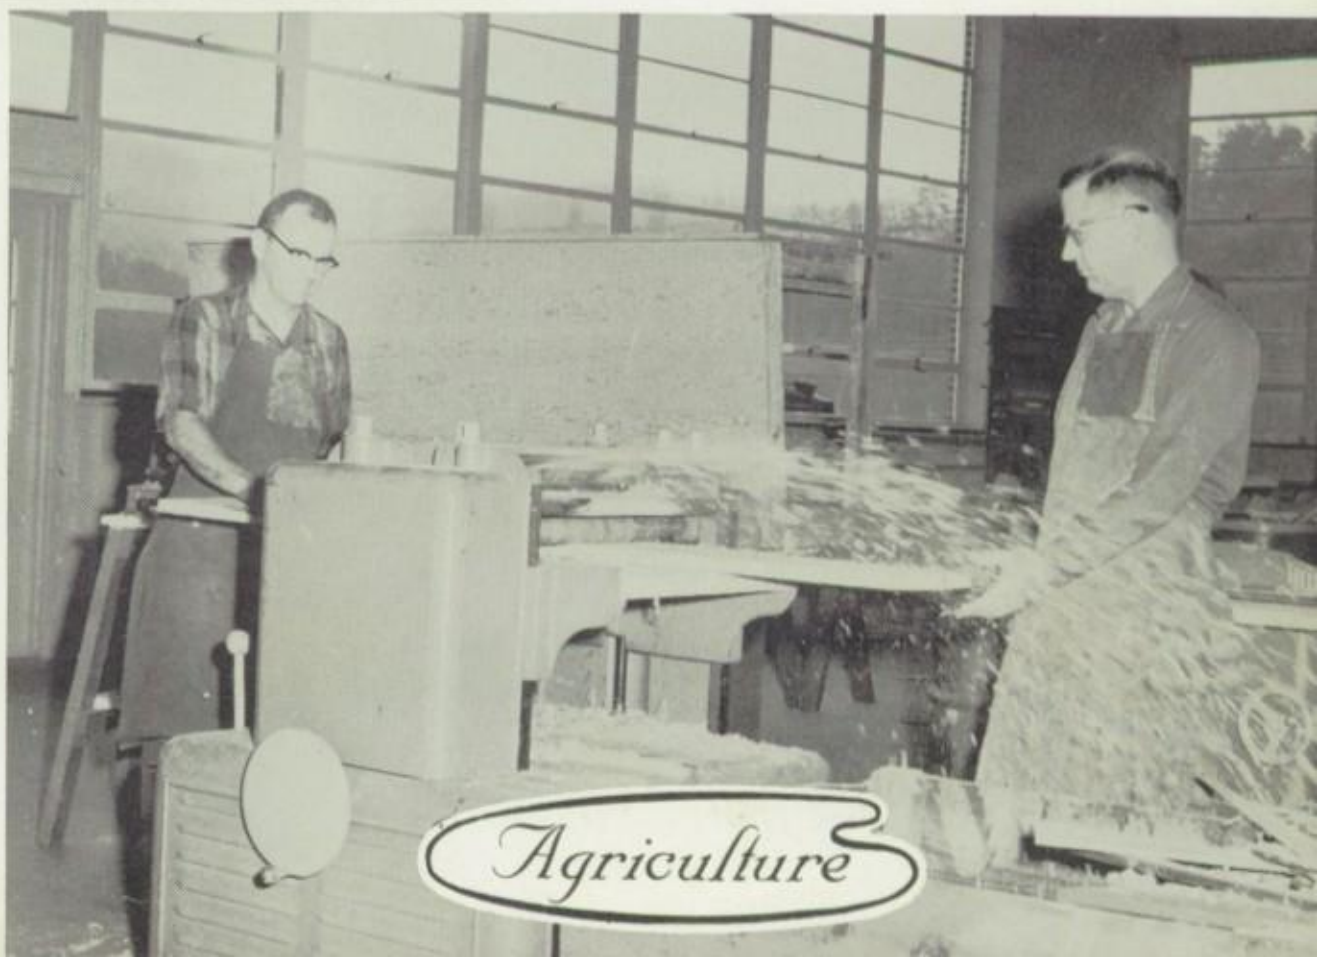

Science

We studied the stars, the earth,
 and the moon
 It seemed like these classes were
 over too soon.
 We learned about frogs, formulas,
 and such . . .
 Can you imagine how any three
 could ever know so much?

Mrs. Eloise D. Stallings, B. S.
 Mr. Frederick J. Bradley, B. S.
 Mrs. Sue W. Baldwin, B. S.

Whether farming, sawing, or nailing
 up wood,
 That these men knew their business,
 was well understood
 They knew all about trees, and
 dehorning a cow,
 To these men indeed, we owe a bow.

Mr. Ned A. Hawks, M. A.
 Mr. Donald Glenn Allison, B. S.

Stop, look, and listen! Comment

These two can tell you exactly
what to do.

If you forget your French, or run
into a gate,

It won't be their fault, but just
your fate.

Mr. David George Pruett, B. S.
Mrs. Kate Moore Rinehart, M. A.

We went into class and our heads
really whirled,
As problems of business were daily
unfurled---

About Bookkeeping, Typing, or
having an interview,
These three taught us exactly
what to do.

Mr. Ernest Penland, Jr., M. A.
Mr. Joe C. Sellers, M. A.
Mrs. Susie Tatham Coggins, M. A.

Business

Physical Education

Football, basketball, and volley-
ball, too---

They taught those "little" Fresh-
men exactly what to do,

In calisthenics, we were up and
down,

'Til it seemed like we went 'round
and 'round.

Mrs. Marie McCracken, B. S.
Mr. Joe Thomas Hunt, M. A.

One of the most gratifying awards for four years of hard work comes at the end of the Senior year when the ten students with the highest scholastic averages are chosen as Senior Marshals.

Achieving this honor in a class numbering 115 persons is well-deserved recognition.

Coach Gordon: Girls in front; boys in back; and no mixing up!

Mr. Holtzclaw: Get quiet!!

Mrs. Davis: Reach for your dictionary.

Mrs. Evans: $XY=167$, SO IT DOES.

Mrs. Cowan: Let's find out, just to be sure.

Miss Barnard: I don't have to stay here! They're always needing waitresses at the Battery Park Hotel.

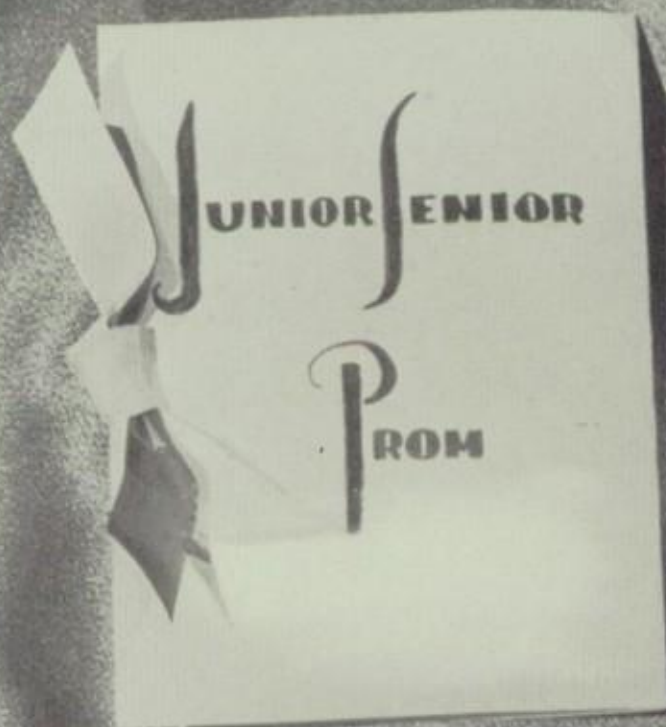

Mr. Clark: Let's go out like a fire drill.

Mr. Sellers: You'd better "star" that. You'll see it later.

Mrs. Reed: All right, class, the bell has rung.

Golden Eagle Staff

We offer you your 1961 GOLDEN EAGLE. We give you this record of a year of your life, the fun you had, the friends you played and studied with, the ball games, the clubs, the parties, the dances you attended, the hours you spent in classes, in the drugstore, and in the library.

We offer you the labor of our minds and bodies, hours spent over a typewriter . . . struggling with the layout . . . obtaining just the right picture . . . selling advertisements . . . making picture appointments . . . interviewing . . . writing copy . . . proofreading.

All this is a part of our gift to you - your 1961 GOLDEN EAGLE.

CHOICES Staff HIGH SCHOOL BEGINS LIFE

Register of students, August, 26, 1960, marks the official opening date of the Sylva-Webster High School. This climaxed the completion of work approximately one year ago on the \$1,000,000 building, this new school area on the east side of Highway 201, at the Fairview Road intersection. Approximately eight hundred and fifty pupils will be accommodated; at the present time six hundred and twenty are enrolled. Divided into five main departments: English, Social Science, History, Economics, Agriculture, Gymnastics, and Business Education--the school is a typical modern high school. There are nine classrooms, a 32 x 48 foot auditorium, a convenient library, a conference room, a work room, a large tea room (for the Halcyon Club), a guidance room, a principal's office for the secretary, a 50 x 60 foot cafeteria, and the next building is the girls' lounge. The Business Education department consists of four large classrooms and a small room for business machines. Across the walk is the Agriculture building, a shop and two classrooms. The Science building has seven classrooms for higher Mathematics, General Science, and Biology. Laboratories also located here, have their own laboratories section, also contains a private office, a display counter.

Science Clubs

For some students, the word science holds only memories of frogs or lab drawings. There are some individuals, however, for whom the world of science unlocks doors of opportunity. For those whose chief ambition is to split an atom or those who are interested in becoming practicing physicians, the Science Clubs are an answer to many questions. The members enjoy the fellowship of associate budding scientists, and, in addition, learn a little more about the vast and promising world of science.

In this Age of Space, the students in the General Science class find the study of the principles of heat, sound, light, and electricity challenging and interesting. Scientifically minded students become familiar with many chemical substances. Working as a group, the students perform many experiments which give them a greater knowledge of the "how" and "why" of nature.

Left to right: B. Carter, C. Holden, E. Baldrige, and E. Monteith.

Some members of the graduating class of 1961 when they were in the third grade at Sylva Elementary School.

Phyllis,

I want to start this letter off by wishing you and Jim all the luck there is now, and in the future. I knew you two will be a success.

I want to ^{you} know that you have really helped me out, not just in one problem, but in many problems. If it had not have been for you, I don't know what I would have done in some things. (Just hope you never tell anything I have told you.)

Bay, we have had a time with some things, haven't we? ~~But~~ ^I hope you work all your problems, (if you have any) out so what you think is best. Remember all the good times we have had together. Bay, haven't we had some. I hope we may be ^{old} friends next year that we have been there past 3 years.

Whatever you may ~~do~~ this summer, I hope it is for the best. Remember all those basketball games, P.W.M. Program Practice, and all the other good times we have had together. Well, I will stop by saying I wish the best to the best friend that I have ever had.

P.S. Keep all this under your arm and Jim's hat. (I know he will read it.)

To old Abby, from old Abby and Shelly.

Remember all the good and bad times that we've had in homeroom. Part of being a friend is remembering.

Phyllis,
Remember all the good times in "Geometry".
Best of luck to you in the future.

Dear Phyllis Ann,

Here you are almost a senior, and ready for another school year. we have been together for almost three years, which were happy and successful ones for you and I together. The future is not far away, so start now by planning for it in a very sensible manner, which you are capable of doing. The times for you and I have been wonderful and happy ones; although, ~~we~~

They have contained their ups and downs which we have ironed out with our own knowledge, and each time they seemed to work out fine.

The future is ours for the planning, and planning takes a lot of work and sweat to make it a successful one. Phyllis, please help me to find a better understanding for you so I may learn to love you even more than I do now. I respect you as a person and as a sweet Phyllis Ann. I have a weakness of loving you too much, and I hope to curb this if I can. May your next school year be a happy and successful one, as you may make it to be. I'll be with you to help) Loving you always, Jim
